

Silva Redigonda was born in Italy and has lived in Canada most of her life. During her years in the military, she travelled extensively in Europe and the Middle East.

Hey Guy, Buy Me is Silva's first book. She is currently writing about life in the military.

If you're a man who finds himself frustrated or confused by the complexities of dating and relationships, this humorous, practical, and surprisingly useful volume is for you.

Written by a woman, it reveals the answer to the age old question: What does a woman *really* want in a man? Turns out it's not so scary and complicated after all, although there are a few essentials that you should be acquainted with. Covering the approach, first impressions, the date, and the day after, this book will guide you through the intricacies of modern romance, and amuse you along the way.
